**Location:** Centurion, Gauteng, South Africa

## Professional Profile

Dedicated and detail-oriented professional with experience spanning data collection, software development, and healthcare technology. Possesses practical experience in software development using Java and Python, strong analytical and problem-solving abilities, and a proven track record of maintaining high data quality standards in large-scale national projects. Currently working as an EEG Technician, combining technical expertise with precision and patient-focused service. Passionate about Cybersecurity, Artificial Intelligence, and Software Development, with a strong commitment to continuous learning and innovation.

## Work Experience

### EEG Technician (Current)

2024 – Present

- Perform EEG procedures and monitor neurological activity.
- Prepare patients and ensure accurate data acquisition.
- Maintain equipment and ensure quality standards.
- Record, review, and document test results accurately.

### Software Developer – Zaio (YES Youth)

May 2020 – May 2021

- Analysed user requirements and translated them into technical solutions.
- Designed, coded, tested, and debugged software applications using Java and Python.
- Resolved software defects and performance issues.
- Participated in code reviews and software quality improvement initiatives.

### Data Collector – Statistics South Africa (Stats SA)

January 2022 – July 2022

- Conducted surveys and data collection activities.
- Verified information to ensure high-quality and accurate data.
- Administered questionnaires accurately and professionally.
- Maintained detailed records and adhered to project standards.

#### Key Achievements:

- Maintained strict data quality standards.
- Completed fieldwork within allocated timelines and budget.
- Contributed to accurate geographic boundary and dwelling mapping, improving respondent targeting and data integrity.
